Note 1 – Description of Business

The Beauty Health Company, formerly known as Vesper Healthcare Acquisition Corp. (the “Company” or “BeautyHealth”), was incorporated in Delaware on July 8, 2020. The Company was originally formed for the purpose of entering into a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses.

On May 4, 2021 (the “Closing Date”), the Company consummated the previously announced business combination pursuant to that certain Agreement and Plan of Merger, dated December 8, 2020 (the “Merger Agreement”), by and among Vesper Healthcare Acquisition Corp. (“Vesper”), Hydrate Merger Sub I, Inc. (“Merger Sub I”), Hydrate Merger Sub II, LLC (“Merger Sub II”), LCP Edge Intermediate, Inc., the indirect parent of Edge Systems LLC d/b/a The HydraFacial Company (“HydraFacial”), and LCP Edge Holdco, LLC (“LCP” or “Former Parent,” and, in its capacity as the stockholders’ representative, the “Stockholders’ Representative”), which provided for: (a) the merger of Merger Sub I with and into HydraFacial, with HydraFacial continuing as the surviving corporation (the “First Merger”), and (b) immediately following the First Merger and as part of the same overall transaction as the First Merger, the merger of HydraFacial with and into Merger Sub II, with Merger Sub II continuing as the surviving entity (the “Second Merger” and, together with the First Merger, the “Mergers” and, together with the other transactions contemplated by the Merger Agreement, the “Business Combination”). As a result of the First Merger, the Company owns 100% of the outstanding common stock of HydraFacial and each share of common stock and preferred stock of HydraFacial has been cancelled and converted into the right to receive a portion of the consideration payable in connection with the Mergers. As a result of the Second Merger, the Company owns 100% of the outstanding interests in Merger Sub II. In connection with the closing of the Business Combination (the “Closing”), the Company owns, directly or indirectly, 100% of the stock of HydraFacial and its subsidiaries and the stockholders of HydraFacial as of immediately prior to the effective time of the First Merger (the “HydraFacial Stockholders”) hold a portion of the Company’s Class A Common Stock, par value \$0.0001 per share (the “Class A Common Stock”).

In connection with the Closing, the Company changed its name from “Vesper Healthcare Acquisition Corp.” to “The Beauty Health Company.” Following the Closing, on May 6, 2021, the Company’s Class A Common Stock and publicly traded warrants were listed on the Nasdaq Capital Market (“Nasdaq”) under the symbols, “SKIN” and “SKINW”, respectively. The transactions set forth in the Merger Agreement constitute a “Business Combination” as contemplated by Vesper’s Second Amended and Restated Certificate of Incorporation.

Unless the context otherwise requires, in this Quarterly Report on Form 10-Q, the “Company” refers to Vesper Healthcare Acquisition Corp. prior to the closing of the Business Combination and to the combined company and its subsidiaries following the Closing and “HydraFacial” refers to the business of LCP Edge Intermediate, Inc. and its subsidiaries prior to the Closing. References to “Vesper” refer to Vesper Healthcare Acquisition Corp. prior to the consummation of the Business Combination.

The Company is a category-creating beauty health company focused on bringing innovative products to market. The Company and its subsidiaries design, develop, manufacture, market, and sell a/esthetic technologies and products. The Company’s flagship brand, HydraFacial, is a non-invasive and approachable beauty health platform and ecosystem. HydraFacial uses a unique delivery system to cleanse, extract, and hydrate with their patented hydradermabrasion technology and serums that are made with nourishing ingredients.

The COVID-19 pandemic has had, and may continue to have adverse impacts on our business. As government authorities around the world continue to implement significant measures intended to control the spread of the virus and institute restrictions on commercial operations, while simultaneously implementing policies designed to reopen certain markets, we are working to ensure our compliance and maintain business continuity for essential operations. The extent to which the COVID-19 pandemic impacts our business going forward will depend on numerous factors we cannot reliably predict, including the duration and scope of the pandemic; businesses and individuals’ actions in response to the pandemic; and the impact on economic activity including the possibility of recession or financial market instability.

Note 2 – Summary of Significant Accounting Policies

Information regarding the Company’s significant accounting policies is contained in Note 2, “Summary of Significant Accounting Policies”, to the consolidated financial statements included in the Company’s Annual Report on Form 10-K filed with the SEC on March 1, 2022.

New Accounting Pronouncements Not Yet Adopted

In October 2021, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) ASU 2021-08, Business Combinations (Topic 805), which primarily relates to the accounting for contract assets and contract liabilities from contracts with customers in a business combination. The standard will be effective for annual reporting periods beginning after December 31, 2022, including interim reporting periods within those periods, with early adoption permitted. We are currently evaluating the impact of adopting this new accounting guidance on our consolidated financial statements.

Note 3 – Business Combinations and Asset Acquisitions

Business Combination — Reverse Recapitalization

The closing of the Business Combination occurred on May 4, 2021. In connection with the Business Combination:

- Certain accredited investors (the “PIPE Investors”) entered into subscription agreements (the “PIPE Subscription Agreements”) pursuant to which the PIPE Investors agreed to purchase 35,000,000 shares (the “PIPE Shares”) of the Company’s Class A Common Stock at a purchase price per share of \$10.00 for an aggregate purchase price of \$350.0 million (the “PIPE Investment”). The PIPE Investment was consummated substantially concurrently with the Closing of the Business Combination.
- Prior to the Business Combination, the Company issued an aggregate of 11,500,000 shares of the Company’s Class B Common Stock (the “Founder Shares”) to the Sponsor for an aggregate purchase price of \$25,000 in cash. All outstanding Founder Shares were automatically converted into shares of the Company’s Class A Common Stock on a one-for-one basis at the Closing and will continue to be subject to the transfer restrictions applicable to such shares of Founder Shares.
- In connection with the Closing, holders of 2,672,690 shares of the Company’s Class A Common Stock exercised their rights for the Company to redeem their respective shares for cash at an approximate price of \$10.00 per share, for an aggregate of approximately \$26.7 million, which was paid to such holders at Closing.
- Immediately after giving effect to the Merger and the PIPE Investment, there were 125,329,053 shares of the Company’s Class A Common Stock issued and outstanding.
- The aggregate gross cash consideration received by the Company in connection with the Business Combination was \$783 million, which consisted of proceeds of \$350 million from the PIPE Investment, plus approximately \$433 million of cash from the Company’s trust account that held the proceeds from the Company’s initial public offering (the “Trust Account”). The aggregate gross cash consideration received was reduced by \$368 million, which consisted of cash payments made to the former shareholders of HydraFacial, and further reduced by an additional \$57 million for the payment of direct transaction costs incurred by HydraFacial and the Company which were reflected as a reduction of proceeds. The Company used the net proceeds to repay all of its outstanding indebtedness at the Closing. The remainder of the consideration paid to the HydraFacial Stockholders consisted of 35,501,743 newly issued shares of Class A Common Stock (the “Stock Consideration”). The net cash received from the Business Combination was subject to a working capital adjustment of \$0.9 million. The Company also issued 70,860 shares related to the working capital adjustment.

The following table reconciles the elements of the Business Combination to the Company’s Consolidated Statements of Cash Flows and the Consolidated Statements of Stockholders’ Equity (Deficit) for the year ended December 31, 2021:

Distributor Acquisitions

On June 4, 2021, the Company acquired High Tech Laser, Australia Pty Ltd (“HTL”), a distributor of the Company’s products in Australia. On July 1, 2021, the Company acquired Wigmore Medical France (“Wigmore”), Ecomedic GmbH (“Ecomedic”) and Sistemas Dermatologicos Internacionales (“Sidermica”), distributors of the Company’s products in France, Germany and Mexico, respectively. Through these acquisitions, the Company plans to directly sell to the respective markets and improve services for its products. Cash paid for the four distributors totaled \$23.7 million.

The Company applied the acquisition method of accounting and established a new basis of accounting on the dates of the respective acquisitions. The assets acquired by the Company are accordingly measured at their estimated fair values as of the acquisition date. The goodwill arising from the acquisitions consists largely of the business reputation of the acquired company in the marketplace and its assembled workforce. The goodwill is not deductible for income tax purposes.

The Company finalized the valuation of assets acquired and liabilities assumed for the distributor acquisitions as of June 30, 2022. The following table summarizes the consideration and fair values assigned to the assets acquired and liabilities

assumed at the dates of acquisition for the Wigmore, Ecomedic and Sidermica acquisitions and summarizes the HTL acquisition after measurement period adjustments.

- (1) Class A Common Stock issued as consideration for the acquisitions was 110,726, 28,157, 401,021 and 50,195 shares for HTL, Wigmore, Ecomedic and Sidermica, respectively.
- (2) During the fourth quarter of 2021, adjustments were made to the Wigmore valuation pertaining to contingent consideration and intangible assets. Goodwill was adjusted due to an increase of \$0.3 million in contingent consideration and a decrease of \$1.0 million in intangible assets. Contingent consideration payments for the Wigmore acquisition were paid during the three months ended March 31, 2022.
- (3) During the first quarter of 2022, adjustments were made to the Ecomedic valuation pertaining to acquisition date tax liability. Goodwill was adjusted due to an increase of \$0.2 million to acquisition date tax liability.
- (4) During the second quarter of 2022, adjustments were made to the Sidermica valuation pertaining to contingent consideration. Goodwill was adjusted due to an increase in contingent consideration of \$1.98 million. Contingent consideration payments for the Sidermica acquisition were paid during the three months ended June 30, 2022.

Intangible assets acquired included customer relationships and non-compete agreements. The valuation of the acquired intangible asset was estimated by performing projections of discounted cash flows, whereby revenues and costs associated with each intangible asset are forecasted to derive expected cash flow which is discounted to present value at discount rates commensurate with perceived risk. The valuation and projection process is inherently subjective and relies on significant unobservable inputs (Level 3 inputs). The weighted average amortization period of customer relationship was 5 years, while the non-compete agreements are amortized over 3 years.

The operating results of the distributor acquisitions from the dates of acquisitions through June 30, 2022 are included in the Condensed Consolidated Statements of Comprehensive Income (Loss). The operating results are not material to the consolidated financial statements, and, therefore, the Company has not presented pro forma results of operations for the distributor acquisitions.

Acquisition of The Personalized Beauty Company, Inc. ("Mxt")

On April 12, 2022, the Company, through its indirect, wholly-owned subsidiary, Edge Systems Intermediate, LLC, acquired The Personalized Beauty Company, Inc., a Delaware corporation d.b.a. Mxt. Consideration paid in the aggregate was \$1.5 million plus equity consideration of \$0.5 million or 28,733 shares of the Company's Class A Common Stock. Depending on the achievement of certain revenue milestones, the former Mxt shareholders are entitled to receive up to \$30 million of earnout payments. The estimated fair value of the earnout was not material as of the acquisition date.

The Company accounted for this transaction as an asset acquisition based on an evaluation of the U.S. GAAP guidance for business combinations and concluded that the Company acquired developed technology of \$1.9 million and inventory of \$0.1 million. The Company concluded that the developed technology acquired from Mxt comprised substantially all of the fair value of the gross assets acquired and that the assets acquired did not meet the definition of a business under the guidance for business combinations. The developed technology intangible asset is being amortized on a straight-line basis over 3 years and recorded in cost of sales.

Note 4 – Revenue Recognition

The Company has determined that each of its products is distinct and represents a separate performance obligation. The customer can benefit from each product on its own or together with other resources that are readily available to the customer. The products are separately identifiable from other promises in the contract. Control over the Company’s products generally transfers to the customer upon shipment of the products from the Company’s warehouse facility. Therefore, revenue associated with product purchases is recognized at a point in time upon shipment to the intended customer. Typical payment terms provide for the customer to pay within 30 to 120 days, however, we provide an option for qualified customers to pay for delivery systems over 12 monthly installments.

Disaggregated Revenue

The Company generates revenue through manufacturing and selling HydraFacial Delivery Systems (“*Delivery Systems*”). In conjunction with the sale of Delivery Systems, HydraFacial also sells its serum solutions and consumables (collectively “*Consumables*”). Consumables are sold solely and exclusively by HydraFacial and are available for purchase separately from the purchase of Delivery Systems. For both Delivery Systems and Consumables, revenue is recognized upon transfer of control to the customer, which generally takes place at the point of shipment.

The Company’s revenue disaggregated by major product line consists of the following for the periods indicated:

Note 6 — Leases

The Company does not own any real estate. The majority of the Company's lease liability consists of the Company's international office spaces and warehouses, all of which are classified as operating leases. The Company's finance leases relate to leased equipment such as office and warehouse equipment. The finance lease balances are not material but are included in property and equipment, other accrued expenses, and other long-term liabilities of the Condensed Consolidated Balance Sheets. During the three months ended June 30, 2022 the Company entered into leases for a new experience center in Paris for a right-of-use asset and lease liability of \$1.1 million and an office in Frankfurt for a right-of-use asset and lease liability of \$1.6 million.

Note 7 — Fair Value Measurements

The Company follows the guidance in ASC 820 for its financial assets and liabilities that are re-measured and reported at fair value at each reporting period, and non-financial assets and liabilities that are re-measured and reported at fair value at least annually.

The fair value of the Company's financial assets and liabilities reflects management's estimate of amounts that the Company would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from independent sources) and to minimize the use of unobservable inputs (internal assumptions about how market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

Level 1: Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2: Observable inputs other than Level 1 inputs. Examples of Level 2 inputs include quoted prices in active markets for similar assets or liabilities and quoted prices for identical assets or liabilities in markets that are not active.

Level 3: Unobservable inputs based on our assessment of the assumptions that market participants would use in pricing the asset or liability.

The following table presents information about the Company's assets and liabilities that are measured at fair value on a recurring basis at June 30, 2022, and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value. As of the Business Combination date, the Private Placement Warrants were valued using the Public Warrant Price, and was considered to be a Level 2 financial instrument as of that date. As of June 30, 2022, the value of the Private Placement Warrants was determined using their redemption value because these Private Placement Warrants are subject to redemption if the reference value of the common stock, as defined, is between \$10.00 and \$18.00 per share. The Private Placement Warrants are classified as a Level 2 financial instrument. There were no Public Warrants outstanding as of June 30, 2022. There were no valuation level transfers during the six months ended June 30, 2022.

Money Market Funds

The Company's investment in money market funds that are classified as cash equivalents hold underlying investments with a weighted average maturity of 90 days or less and are recognized at fair value. The valuations of these securities are based on quoted prices in active markets for identical assets, when available, or pricing models whereby all significant inputs are observable or can be derived from or corroborated by observable market data. The Company reviews security pricing and assesses liquidity on a quarterly basis. As of June 30, 2022, the Company's U.S. portfolio had no material exposure to money market funds with a fluctuating net asset value.

Warrant Liabilities

The Public Warrants and Private Placement Warrants (collectively, the "Warrants") were accounted for as liabilities in accordance with ASC 815-40 and are presented within Warrant liabilities on the Company's Condensed Consolidated Balance Sheets. The Warrants are measured at fair value at inception and on a recurring basis, with changes in fair value presented within change in fair value of warrant liabilities in the Company's Condensed Consolidated Statements of Comprehensive Income (Loss). At June 30, 2022, the outstanding Private Placement Warrants was determined using their redemption value because these Warrants are subject to redemption if the reference value of the common stock, as defined, is between \$10.00 and \$18.00 per share. The Private Placement Warrants are classified as a Level 2 financial instruments as of June 30, 2022. There were no Public Warrants outstanding as of June 30, 2022.

On October 4, 2021, the Company issued a press release stating that it would redeem all of the Public Warrants that remained outstanding following 5:00 p.m. New York City time on November 3, 2021, for a redemption price of \$0.10 per Public Warrant. All 16.2 million outstanding Public Warrants were either exercised for cash or on a cashless basis or were redeemed. These outstanding Public Warrants that were exercised comprised 15.3 million Public Warrants issued in connection with the Vesper initial public offering and an additional 0.9 million warrants that became Public Warrants due to the sale of Private Placement Warrants. Approximately 16.1 million Public Warrants were exercised for cash at an exercise price of \$11.50 per share of Class A Common Stock, 74,104 Public Warrants were exercised on a cashless basis in exchange for an aggregate of 26,732 shares of Class A Common Stock, and 75,016 warrants were redeemed for \$0.10 per warrant, in each case in accordance with the terms of the Warrant Agreement. In 2021, total cash proceeds generated from exercises of the Public Warrants were \$185.4 million. In addition, 0.3 million Private Placement Warrants were exercised in 2021 for total cash proceeds of \$3.0 million. As of June 30, 2022, the Company had approximately 7 million Private Placement Warrants outstanding.

Note 10 – Long-term Debt

Credit Facility

On December 30, 2021, Edge Systems LLC, a California limited liability company (the "Borrower") and an indirect wholly owned subsidiary of The Beauty Health Company, as borrower, entered into a Credit Agreement (the "Credit Agreement") with Edge Systems Intermediate LLC, an indirect wholly owned subsidiary of the Company and the direct parent of the Borrower that holds the Company's foreign and domestic operating entities, and The Hydrafacial Company Mexico Holdings, LLC, a direct wholly owned subsidiary of the Borrower that conducts the Mexican business operations, as guarantors (the "Guarantors" and, together with the Borrower, the "Loan Parties"), and JPMorgan Chase Bank, N.A., as administrative agent.

The Credit Agreement provides for a \$50 million revolving credit facility with a maturity date of December 30, 2026. In addition, the Borrower has the ability from time to time to increase the revolving commitments or enter into one or more tranches of term loans up to an additional aggregate amount not to exceed \$50 million, subject to receipt of lender commitments and certain conditions precedent. As of June 30, 2022 the Credit Agreement remains undrawn and there is no outstanding balance under the revolving credit facility.

Borrowings under the Credit Agreement are secured by certain collateral of the Loan Parties and are guaranteed by the Guarantors, each of whom will derive substantial benefit from the revolving credit facility. In specified circumstances, additional guarantors are required to be added. The Credit Agreement contains various restrictive covenants subject to certain exceptions, including limitations on the Borrower's ability to incur indebtedness and certain liens, make certain investments,

become liable under contingent obligations in certain circumstances, make certain restricted payments, make certain dispositions within guidelines and limits, engage in certain affiliate transactions, alter its fundamental business or make certain fundamental changes, and requirements to maintain financial covenants, including maintaining a leverage ratio of no greater than 3.00 to 1.00 and maintaining a fixed charge coverage ratio of not less than 1.15 to 1.00. As of June 30, 2022 the Company was in compliance with all restricted and financial covenants.

The leverage ratio also determines pricing under the Credit Agreement. At the Borrower's option, borrowings under the revolving credit facility accrue interest at a rate equal to either LIBOR or a specified base rate plus an applicable margin. The applicable margin is linked to the leverage ratio. The margins range from 2.00% to 2.50% per annum for LIBOR loans and 1.00% to 1.50% per annum for base rate loans. The revolving credit facility is subject to a commitment fee payable on the unused revolving credit facility commitments ranging from 0.25% to 0.35%, depending on the Borrower's leverage ratio. As of June 30, 2022 the Company's unused commitment rate was 0.25%. The Borrower is also required to pay certain fees to the administrative agent and letter of credit issuers under the revolving credit facility. During the term of the revolving credit facility, the Borrower may borrow, repay and re-borrow amounts available under the revolving credit facility, subject to voluntary reductions of the swing line, letter of credit and revolving credit commitments.

Convertible Senior Notes

On September 14, 2021, the Company issued an aggregate of \$750 million in principal amount of its 1.25% Convertible Senior Notes due 2026 (the "Notes"). The Notes were issued pursuant to, and are governed by, an indenture (the "Indenture"), dated as of September 14, 2021, between the Company and U.S. Bank National Association, as trustee. Pursuant to the purchase agreement between the Company and the initial purchasers of the Notes, the Company granted the initial purchasers an option to purchase, for settlement within a period of 13 days from, and including, the date the Notes were first issued, up to an additional \$100 million principal amount of Notes. The Notes issued on September 14, 2021 include the \$100 million principal amount of Notes issued pursuant to the full exercise by the initial purchasers of such option.

The Notes are the Company's senior, unsecured obligations and are (i) equal in right of payment with the Company's existing and future senior, unsecured indebtedness; (ii) senior in right of payment to the Company's existing and future indebtedness that is expressly subordinated to the Notes; (iii) effectively subordinated to the Company's existing and future secured indebtedness, to the extent of the value of the collateral securing that indebtedness; and (iv) structurally subordinated to all existing and future indebtedness and other liabilities, including trade payables, and (to the extent the Company is not a holder thereof) preferred equity, if any, of the Company's subsidiaries.

The Notes accrue interest at a rate of 1.25% per annum, payable semi-annually in arrears on April 1 and October 1 of each year, beginning on April 1, 2022. The Notes mature on October 1, 2026, unless earlier repurchased, redeemed or converted. Before April 1, 2026, noteholders have the right to convert their Notes only upon the occurrence of certain events. From and after April 1, 2026, noteholders may convert their Notes at any time at their election until the close of business on the second scheduled trading day immediately before the maturity date. The Company will settle conversions by paying or delivering, as applicable, cash, shares of its common stock or a combination of cash and shares of its common stock, at the Company's election. The initial conversion rate is 31.4859 shares of common stock per \$1,000 principal amount of Notes, which represents an initial conversion price of approximately \$31.76 per share of common stock. The conversion rate and conversion price will be subject to customary adjustments upon the occurrence of certain events. In addition, if certain corporate events that constitute a "Make-Whole Fundamental Change" (as defined in the Indenture) occur, then the conversion rate will, in certain circumstances, be increased for a specified period of time.

The Notes are redeemable, in whole or in part (subject to certain limitations described below), at the Company's option at any time, and from time to time, on or after October 6, 2024, and on or before the 40th scheduled trading day immediately before the maturity date, but only if certain liquidity conditions are satisfied and the last reported sale price per share of the Company's common stock exceeds 130% of the conversion price on (i) each of at least 20 trading days, whether or not consecutive, during the 30 consecutive trading days ending on, and including, the trading day immediately before the date the Company sends the related redemption notice; and (ii) the trading day immediately before the date the Company sends such notice. However, the Company may not redeem less than all of the outstanding notes unless at least \$100.0 million aggregate principal amount of notes are outstanding and not called for redemption as of the time the Company sends the related redemption notice. The redemption price will be a cash amount equal to the principal amount of the Notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the redemption date. In addition, calling any Note for redemption will constitute a Make-Whole Fundamental Change with respect to that Note, in which case the conversion rate applicable to the conversion of that Note will be increased in certain circumstances if it is converted after it is called for redemption.

If certain corporate events that constitute a “Fundamental Change” (as defined in the Indenture) occur, then, subject to a limited exception for certain cash mergers, noteholders may require the Company to repurchase their Notes at a cash repurchase price equal to the principal amount of the Notes to be repurchased, plus accrued and unpaid interest, if any, to, but excluding, the fundamental change repurchase date. The definition of Fundamental Change includes certain business combination transactions involving the Company and certain de-listing events with respect to the Company’s common stock.

The Notes have customary provisions relating to the occurrence of “Events of Default” (as defined in the Indenture), which include the following: (i) certain payment defaults on the Notes (which, in the case of a default in the payment of interest on the Notes, will be subject to a 30-day cure period); (ii) the Company’s failure to send certain notices under the Indenture within specified periods of time; (iii) the Company’s failure to convert a Note upon the exercise of the conversion right with respect to such Note, subject to a three business-day cure period; (iv) the Company’s failure to comply with certain covenants in the Indenture relating to the Company’s ability to consolidate with or merge with or into, or sell, lease or otherwise transfer, in one transaction or a series of transactions, all or substantially all of the assets of the Company and its subsidiaries, taken as a whole, to another person; (v) a default by the Company in its other obligations or agreements under the Indenture or the Notes if such default is not cured or waived within 60 days after notice is given in accordance with the Indenture; (vi) certain defaults by the Company or any of its subsidiaries with respect to indebtedness for money borrowed of at least \$45,000,000; (vii) the rendering of certain judgments against the Company or any of its significant subsidiaries for the payment of at least \$45,000,000, where such judgments are not discharged or stayed within 60 days after the date on which the right to appeal has expired or on which all rights to appeal have been extinguished and (viii) certain events of bankruptcy, insolvency and reorganization involving the Company or any of its significant subsidiaries.

If an Event of Default involving bankruptcy, insolvency or reorganization events with respect to the Company (and not solely with respect to a significant subsidiary of the Company) occurs, then the principal amount of, and all accrued and unpaid interest on, all of the Notes then outstanding will immediately become due and payable without any further action or notice by any person. If any other Event of Default occurs and is continuing, then, the Trustee, by notice to the Company, or noteholders of at least 25% of the aggregate principal amount of Notes then outstanding, by notice to the Company and the Trustee, may declare the principal amount of, and all accrued and unpaid interest on, all of the Notes then outstanding to become due and payable immediately. However, notwithstanding the foregoing, the Company may elect, at its option, that the sole remedy for an Event of Default relating to certain failures by the Company to comply with certain reporting covenants in the Indenture consists exclusively of the right of the noteholders to receive special interest on the Notes for up to 180 days at a specified rate per annum not exceeding 1.00% on the principal amount of the Notes.

The Notes were issued to the initial purchasers of such Notes in transactions not involving any public offering in reliance upon Section 4(a)(2) of the Securities Act. The Notes were resold by the initial purchasers to persons whom the initial purchasers reasonably believe are “qualified institutional buyers,” as defined in, and in accordance with, Rule 144A under the Securities Act.

The total amount of debt issuance costs of \$21.3 million was recorded as a reduction to “Convertible senior notes, net” in the Company’s Condensed Consolidated Balance Sheets and are being amortized as interest expense over the term of the Notes using the effective interest method. During the three and six months ended June 30, 2022, the Company recognized \$1.1 million and \$2.1 million in interest expense related to the amortization of the debt issuance costs related to the Notes, respectively. There was no such expense related to the Notes in the three and six months ended June 30, 2021.

The following is a summary of the Company’s Notes as of June 30, 2022:

(in thousands)	Principal Amount	Unamortized Issuance Costs	Net Carrying Value	Fair Value	
				Amount	Level
1.25% Convertible Notes due 2026	\$ 750,000	\$ 17,972	\$ 732,028	\$ 602,250	Level 2

The Notes are carried at face value less the unamortized debt issuance costs on the Company’s Consolidated Balance Sheets. As of June 30, 2022, the estimated fair value of the Notes was approximately \$602 million. The estimated fair value of the Notes was determined based on the actual bid price of the Notes on June 30, 2022.

As of June 30, 2022, the remaining life of the Notes is approximately 4.3 years.

Capped Call Transactions

On September 9, 2021, in connection with the pricing of the offering of Notes, the Company entered into privately negotiated capped call transactions (the “Base Capped Call Transactions”) with Bank of Montreal, Credit Suisse Capital LLC, Deutsche Bank AG, London Branch, Goldman Sachs & Co. LLC, JPMorgan Chase Bank, National Association, Mizuho Markets Americas LLC and Wells Fargo Bank, National Association (the “Option Counterparties”). In addition, on September 10, 2021, in connection with the initial purchasers’ exercise of their option to purchase additional Notes, the Company entered into additional capped call transactions (the “Additional Capped Call Transactions,” and, together with the Base Capped Call Transactions, the “Capped Call Transactions”) with each of the Option Counterparties. The Capped Call Transactions cover, subject to customary anti-dilution adjustments, the aggregate number of shares of the Company’s common stock that initially underlie the Notes, and are expected generally to reduce potential dilution to the Company’s common stock upon any conversion of Notes and/or offset any cash payments the Company is required to make in excess of the principal amount of converted Notes, as the case may be, with such reduction and/or offset subject to a cap, based on the cap price of the Capped Call Transactions. The cap price of the Capped Call Transactions is initially \$47.94, which represents a premium of 100% over the last reported sale price of the Company’s common stock on September 9, 2021. The cost of the Capped Call Transactions was approximately \$90.2 million.

The Capped Call Transactions are separate transactions, each between the Company and the applicable Option Counterparty, and are not part of the terms of the Notes and do not affect any holder’s rights under the Notes or the Indenture. Holders of the Notes will not have any rights with respect to the Capped Call Transactions.

Business Combination

In connection with the Closing of the Business Combination, all of HydraFacial’s existing debt under its credit facilities were repaid and its credit facilities were extinguished. The related write-off of the deferred financing costs totaled \$2.3 million and prepayment penalties totaled \$2.0 million in 2021. Both are included in the Other expense (income), net on the Company’s Consolidated Statements of Comprehensive Income (Loss).

Deferred financing costs expense prior to the Closing of the Business Combination for the three and six months ended June 30, 2021 amounted to \$0.1 million and \$0.5 million and is included in Interest expense, net on the Company’s Consolidated Statements of Comprehensive Income (Loss).

Note 11 – Income Taxes

The income tax expense for the three months and six months ended June 30, 2022 is \$0.1 million and \$2.7 million, respectively

The income tax benefit for the three and six months ended June 30, 2021 is \$1.9 million and \$2.2 million, respectively.

The effective tax rate for the three and six months ended June 30, 2022 is 0.95% and 6.24%, which is lower than the federal statutory rate of 21.0% primarily due to the exclusion of book income from the revaluation of warrant liabilities and adjustments for various non-deductible expenses for officer’s compensation and meals and entertainment.

The effective tax rate for the three and six months ended June 30, 2021 is 1.32% and 1.50%, which is lower than the federal statutory rate of 21.0% primarily due to the increase in valuation allowance and non-deductible expense related to stock-based compensation and meals and entertainment.

The Company has established a valuation allowance against a portion of its remaining deferred tax assets because it is more likely than not that certain deferred tax assets will not be realized. In determining whether deferred tax assets are realizable, the Company considered numerous factors including historical profitability, the amount of future taxable income and the existence of taxable temporary differences that can be used to realize deferred tax assets.

Additionally, the Company applies ASC 740, the accounting standard governing uncertainty in income taxes that prescribes rules for recognition, measurement and classification in the financial statements of tax positions taken or expected to be taken in a tax return. The Company has gross unrecognized tax benefits of \$0.2 million and \$0.1 million for the six months ended June 30, 2022 and June 30, 2021, respectively.

On March 11, 2021 the United States enacted the American Rescue Plan Act of 2021 (“American Rescue Plan”). The American Rescue Plan includes various income and payroll tax measures. The Company does not expect a material impact of the American Rescue Plan on the Company’s Condensed Consolidated Financial Statements and related disclosures.

Note 13 – Commitments and Contingencies

From time to time the Company may be involved in claims, legal actions and governmental proceedings that arise from its business operations. As of June 30, 2022, the Company was not a party to any legal proceedings or threatened legal proceedings, the adverse outcome of which, individually or in the aggregate, that it believes would have a material adverse effect on its business, financial condition or results of operations.

Note 14 – Concentrations

As of June 30, 2022, the Company had no customers that accounted for 10% or more of the Accounts receivable balance.

As of December 31, 2021, the Company had no customers that accounted for 10% or more of the Accounts receivable balance.

No single customer accounted for 10% or more of consolidated Net sales during the three and six months ended June 30, 2022 and June 30, 2021.

Note 15 – Related-Party Transactions

Registration Rights Agreement

In connection with the consummation of the Business Combination, on May 4, 2021, the Company entered into that certain Amended and Restated Registration Rights Agreement (the “Registration Rights Agreement”) with BLS Investor Group LLC and the HydraFacial Stockholders.

Pursuant to the terms of the Registration Rights Agreement, (i) any outstanding share of Class A Common Stock or any other equity security (including the Private Placement Warrants and including shares of Class A Common Stock issued or issuable upon the exercise of any other equity security) of the Company held by the Sponsor or the HydraFacial Stockholders (together, the “Restricted Stockholders”) as of the date of the Registration Rights Agreement or thereafter acquired by a Restricted Stockholder (including the shares of Class A Common Stock issued upon conversion of the 11,500,000 Founder Shares that were owned by the Sponsor and converted to shares of Class A Common Stock prior in connection with the Business Combination and upon exercise of any Private Placement Warrants) and shares of Class A Common Stock issued as earn-out shares to the HydraFacial Stockholders and (ii) any other equity security of the Company issued or issuable with respect to any such share of common stock by way of a stock dividend or stock split or in connection with a combination of shares, recapitalization, merger, consolidation or other reorganization or otherwise will be entitled to registration rights.

The Registration Rights Agreement provides that the Company will, within 60 days after the consummation of the Business Combination, file with the SEC a shelf registration statement registering the resale of the shares of common stock held by the Restricted Stockholders and will use its reasonable best efforts to have such registration statement declared effective as soon as practicable after the filing thereof, but in no event later than 60 days following the filing deadline. The Company filed such registration statement on July 19, 2021 and it was declared effective by the SEC on July 26, 2021. The HydraFacial Stockholders are entitled to make up to an aggregate of two demands for registration, excluding short form demands, that the Company register shares of common stock held by these parties. In addition, the Restricted Stockholders have certain “piggy-back” registration rights. The Company will bear the expenses incurred in connection with the filing of any registration statements filed pursuant to the terms of the Registration Rights Agreement. The Company and the Restricted Stockholders agree in the Registration Rights Agreement to provide customary indemnification in connection with any offerings of common stock effected pursuant to the terms of the Registration Rights Agreement.

Pursuant to the Registration Rights Agreement, the Sponsor agreed to restrictions on the transfer of their securities issued in the Company’s initial public offering, which (i) in the case of the Founder Shares is one year after the completion of the Business Combination unless (A) the closing price of the common stock equals or exceeds \$12.00 per share for 20 days out of any 30-trading-day period commencing at least 150 days following the Closing of the Business Combination or (B) the Company completes a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of the Company’s stockholders having the right to exchange their shares of common stock for cash, securities or other property, and (ii) in the case of the Private Placement Warrants and the respective Class A Common Stock underlying the Private Placement Warrants is 30 days after the completion of the Business Combination. The Sponsor and its permitted transferees will also be required, subject to the terms and conditions in the Registration Rights Agreement, not to transfer their Private Placement Warrants (as defined in the Registration Rights Agreement) or shares of common stock issuable upon the exercise thereof for 30 days following the Closing.

Investor Rights Agreement

In connection with the consummation of the Business Combination, on May 4, 2021, the Company and LCP Edge Holdco, LLC entered into that certain Investor Rights Agreement (the “Investor Rights Agreement”). Pursuant to the Investor Rights Agreement, LCP has the right to designate a number of directors for appointment or election to the Company’s board of directors as follows: (i) one director for so long as LCP holds at least 10% of the outstanding Class A Common Stock, (ii) two directors for so long as LCP holds at least 15% of the outstanding Class A Common Stock, and (iii) three directors for so long as LCP holds at least 40% of the outstanding Class A Common Stock. Pursuant to the Investor Rights Agreement, for so long as LCP holds at least 10% of the outstanding Class A Common Stock, LCP will be entitled to have at least one of its designees represented on the compensation committee and nominating committee and corporate governance committee of the Company’s board of directors.

Amended and Restated Management Services Agreement

HydraFacial entered into a Management Services Agreement, dated December 1, 2016 with Linden Capital Partners III LP (“Linden Capital Partners III”) and DW Management Services, L.L.C. (“DW Management Services”) pursuant to which the parties receive quarterly monitoring fees of the greater of (a) \$125,000 and (b) 1.25% of Last Twelve Months EBITDA multiplied by the quotient of (x) the aggregate capital invested by the investors of DW Healthcare Partners IV (B), L.P. (“DWHP Investors”) into LCP and/or its subsidiaries as of such date, divided by (y) the sum of (i) the aggregate capital invested by the DWHP Investors into LCP and/or its subsidiaries, plus (ii) the aggregate capital invested by Linden Capital Partners III into LCP and/or its subsidiaries as of the date of payment. In addition, the management services agreement provides for other fees in relation to services that may be provided in connection with equity and/or debt financing, acquisition of any other business, company, product line or enterprise, or divestiture of any division, business, and product or material assets. The fees vary between 1% and 2% of the related transaction amount. Linden Capital Partners III also received a transaction fee upon the consummation of the Business Combination.

In connection with the consummation of the Business Combination, on May 4, 2021, the Company, its subsidiary, Edge Systems LLC, and Linden Capital III LLC, the general partner of Linden Manager III LP (the “Linden Manager”) entered into an Amended and Restated Management Services Agreement (the “Linden Management Services Agreement”) pursuant to which the Linden Manager may continue to provide advisory services at the request of the Company related to mergers and acquisitions for one year following the Business Combination. As consideration for such services, the Company will pay a fee, equal to 1% of enterprise value of the target acquired, to the Linden Manager upon the consummation of any such transaction (the “1% Fee”). The Company has also agreed to reimburse Linden Manager for certain expenses in connection with such advisory services. However, pursuant to the Linden Management Services Agreement, the Company’s obligation to pay the 1% Pursuant to the terms of the agreement, the fee expired twelve months after the consummation of the Business Combination on May 4, 2022.

HydraFacial recorded approximately \$0.1 million of charges related to management services fees for the six months ended June 30, 2021. There were no management fees during the three and six months ended June 30, 2022. These amounts are included in General and administrative expenses on the Company’s Consolidated Statements of Comprehensive Income (Loss). In relation to the consummation of the Business Combination, \$21.0 million in transaction fees was paid to the Former Parent. These amounts are included in General and administrative expenses on the Company’s Consolidated Statements of Comprehensive Income (Loss).

Miami Beach Office

The Company maintains an office in Miami Beach, Florida, whereby the Company, on a monthly basis, reimburses an entity owned by the Company’s Executive Chairman that makes such office available to the Company for its employees and affiliates. Expense for this property was not material for the six months ended June 30, 2022. No such expenses existed for the six months ended June 30, 2021.

Note 16 - Stockholders’ Deficit

Common Stock

The Company is authorized to issue 320,000,000 shares of Class A Common Stock, par value of \$0.0001 per share. Holders of Class A Common Stock are entitled to one vote for each share. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward-Looking Statements

This Quarterly Report contains "forward looking statements" within the meaning of the "safe harbor" provisions of the United States Private Securities Litigation Reform Act of 1995. When used in this Quarterly Report, the words "estimates," "projected," "expects," "anticipates," "forecasts," "plans," "intends," "believes," "seeks," "may," "will," "should," "future," "propose" and variations of these words or similar expressions (or the negative versions of such words or expressions) are intended to identify forward-looking statements.

These forward-looking statements are not guarantees of future performance, conditions or results, and involve a number of known and unknown risks, uncertainties, assumptions and other important factors, many of which are outside The Beauty Health Company's control, that could cause actual results or outcomes to differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to these differences include, but are not limited to, those identified below and those discussed in the section titled Risk Factors of this filing.

Important factors, among others, that may affect actual results or outcomes include the inability to recognize the anticipated benefits of the Business Combination; costs related to the Business Combination; The Beauty Health Company's availability of cash for debt service and exposure to risk of default under debt obligations; The Beauty Health Company's ability to manage growth; The Beauty Health Company's ability to execute its business plan; potential litigation involving The Beauty Health Company; changes in applicable laws or regulations; the possibility that The Beauty Health Company may be adversely affected by other economic, business, and/or competitive factors; and the impact of the continuing COVID-19 pandemic on our business. The Beauty Health Company does not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q, in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2022 filed with the U.S. Securities and Exchange Commission (SEC) on May 10, 2022 and also with our audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021 filed with the SEC on March 1, 2022.

Unless the context otherwise requires, references to "*HydraFacial*", "*we*", "*us*", and "*our*" in this section are intended to mean the business and operations of The Beauty Health Company and its consolidated subsidiaries.

Company Overview

The Beauty Health Company is a global category-creating company focused on delivering beauty health experiences by reinventing our consumer's relationship with their skin, their bodies and their self-confidence. Our flagship brand, HydraFacial, created the category of hydradermabrasion by using a patented Vortex-Fusion Delivery System to cleanse, peel, exfoliate, extract, infuse, and hydrate the skin with proprietary solutions and serums. HydraFacial provides a non-invasive and approachable experience with a powerful community of a/estheticians, consumers and partners, bridging medical skin correction to traditional over-the-counter beauty. Our vision is to expand our platform and connected community of providers, consumers, brand partners, and retail partners to democratize and personalize beauty health solutions across ages, genders, skin tones, and skin types.

Factors Affecting Our Performance

Market Trends

HydraFacial is a pioneer in the attractive and growing beauty-health industry and there are several emerging market trends that we believe will play a key role in shaping the future of this industry. Recent growth in the skincare industry has been driven by an emphasis on skincare rather than cosmetics and HydraFacial is poised to capture a larger share of wallet from consumers. Further, HydraFacial's market research conducted in 2019 demonstrated that consumers are increasingly willing to spend on high-end beauty health products. To the extent disposable income grows, we expect impacts of this trend to be amplified. We believe these favorable market trends will continue and strengthen going forward. However, we operate in the beauty health industry, which is highly competitive and changes rapidly. Our operating results could be significantly affected by our ability to develop new products and find new distribution channels for new and existing product.

Impact of the COVID-19 Pandemic

The COVID-19 pandemic has had, and may continue to have, adverse impacts on our business. Most markets have recently shown encouraging signs of emergence from the pandemic; however, sporadic containment measures and travel restrictions continue to impact volume trends in certain markets.

As previously reported, we have implemented several key measures in response to the COVID-19 pandemic which continue to be in place. We have also amplified our measures to address the potentially longer-lasting impacts of the COVID-19 pandemic, the intermittent lockdowns and possible economic uncertainty resulting from COVID-19 that continue in many markets. We anticipate the recovery to be non-linear until COVID-19 containment measures are discontinued across all regions and normal consumer traffic resumes on a consistent basis. We currently expect that any easing of containment measures and recovery of the impacted sectors of the economy will be gradual and uneven, as regions face resurgence of COVID-19 and related uncertainties, and the availability and widespread distribution of a safe and effective vaccine varies across regions. As a result, we anticipate that consumer spending habits and consumer confidence will continue to shift, causing future sales and volume trends to be non-linear.

Furthermore, the extent to which the COVID-19 pandemic impacts our business going forward will depend on numerous factors we cannot reliably predict, including the duration and scope of the pandemic; businesses and individuals' actions in response to the pandemic; and the impact on economic activity including the possibility of recession or financial market instability.

Demographics

HydraFacial benefits from a large, young and diverse customer base and the ability to serve a large percentage of the population given that HydraFacial's patented technology addresses all skin, regardless of type, tone, age or gender. At the intersection of the medical and consumer retail markets, the large potential customer base should provide significant upside to drive top-line growth. HydraFacial over indexes with males, significantly increasing the Total Addressable Market (TAM) compared to its peers. Based on a survey we conducted in 2022, we believe HydraFacial resonates strongly with Gen Z and Millennials, with over 50% of our consumers being 37 years old or younger. Millennial and Gen Z consumers appear to be taking skincare more seriously and are willing to invest in treatments such as those offered by HydraFacial.

Marketing

Effective marketing is vital to our ability to drive growth. We plan to further our successful demand-generating activities through educational campaigns that focus on our brand, values, and quality, as well as enhancing our digitally integrated media campaigns.

Innovation

Our strategy involves innovating our current product offering while also diversifying into attractive adjacent categories where we can leverage our strengths, capabilities and community. We intend to maintain investment in research and development to stay at the forefront of cutting-edge technology.

Technology

Our investments in technology enhance the HydraFacial experience for consumers while capturing valuable and leverageable data. As we expand our capabilities, we hope to enable the world's largest skin health database. We believe this data will allow us to drive habituation by enhancing personalization, access, trend identification and consumer education.

Geographic Expansion

HydraFacial's recent growth has been driven in part by our international strategy. 27% of HydraFacial's total revenue during the second quarter of fiscal year 2022 came from outside the United States and Canada. Our diverse distribution channels create a significant opportunity within our existing retail and wholesale channels, as well as new locations abroad. We plan to expand our global footprint, building out our team and infrastructure for further penetration across Asia, Europe and Latin America.

Regulation

It remains unclear how governmental authorities, including the Food and Drug Administration ("FDA") and foreign government authorities, will regulate the products that we sell, and in the case of the FDA, whether and when it will propose or implement new or additional regulations. Unforeseen regulatory obstacles or compliance costs may hinder our business in both the short and long-term as well.

Key Operational and Business Metrics

In addition to the measures presented in our consolidated financial statements, we use the following key operational and business metrics to evaluate our business, measure our performance, develop financial forecasts, and make strategic decisions. Amounts and percentages may not foot due to rounding.

Adjusted Net Income (Loss), Adjusted EBITDA (Loss) and Adjusted EBITDA Margin

Adjusted net income (loss), adjusted EBITDA (loss) and adjusted EBITDA margin are key performance measures that our management uses to assess our operating performance. See the section titled "*Non-GAAP Financial Measures—adjusted net income (loss), adjusted EBITDA (loss) and adjusted EBITDA margin*" for information regarding our use of adjusted net income (loss) and adjusted EBITDA and reconciliations of adjusted net income (loss) and adjusted EBITDA to net loss.

Adjusted Gross Profit and Adjusted Gross Margin

We use adjusted gross profit and adjusted gross margin to measure our profitability and ability to scale and leverage the costs of our Delivery Systems and Consumables sales. See the section titled "*Non-GAAP Financial Measures—adjusted gross profit and adjusted gross margin*" for information regarding our use of adjusted gross profit and a reconciliation of adjusted gross profit to gross profit.

Comparison of Three Months Ended June 30, 2022 to Three Months Ended June 30, 2021

The following tables set forth our consolidated results of operations in dollars and as a percentage of net sales for the periods presented. The period-to-period comparisons of our historical results are not necessarily indicative of the results that may be expected in the future. The results of operations data for the three and six months ended June 30, 2022 and June 30, 2021 have been derived from the condensed consolidated financial statements included elsewhere in this Form 10-Q. Amounts and percentages may not foot due to rounding.

Percentage of net sales				
Delivery Systems	62.6%	52.5%		
Consumables	37.4%	47.5%		
Total	100.0%	100.0%		

Total net sales for the three months ended June 30, 2022 increased \$37.0 million, or 55.7%, compared to the three months ended June 30, 2021. Delivery System sales for the three months ended June 30, 2022 increased \$29.9 million, or 85.4%, compared to the three months ended June 30, 2021. Delivery Systems units sold for the three months ended June 30, 2022 increased primarily due to the strong demand for the Company's new Syndeo delivery system.

There were 2,738 Delivery Systems units sold for the three months ended June 30, 2022, of which 1,203 were trade-ups. Consumables sales for the three months ended June 30, 2022 increased \$7.2 million, or 22.8%, compared to the three months ended June 30, 2021. The increase in Consumables sales was primarily attributable to increased placements of delivery systems and the adjoining consumption of consumables during the three months ended June 30, 2022.

Cost of Sales, Gross Profit, and Gross Margin

(in millions)	Three Months Ended June 30,		Change	
	2022	2021	Amount	%
Cost of sales	\$ 31.9	\$ 19.3	\$ 12.6	65.6%
Gross profit	\$ 71.7	\$ 47.3	\$ 24.4	51.6%
Gross margin	69.2 %	71.0 %		

Cost of sales increased \$12.6 million driven by and in conjunction with increased sales volume in delivery systems and consumables. Gross margin decreased from 71.0% during the three months ended June 30, 2021 to 69.2% during the three months ended June 30, 2022 primarily due to the shift in sales mix of delivery systems from 53% to 63% of sales in the period including lower margin trade-up units, along with higher supply chain and logistics costs. The Company expects continued headwinds from global supply chain challenges and inflationary pressures to weigh on gross margin through 2022, specifically higher shipping costs, offset by fixed cost leverage from higher sales volumes coupled with pricing initiatives, and margin accretion related to the acquired distributor inventory.

Operating Expenses

Sales and Marketing

(in millions)	Three Months Ended June 30,		Change	
	2022	2021	Amount	%
Selling and marketing	\$ 44.9	\$ 26.2	\$ 18.7	71.2 %
<i>As a percentage of net sales</i>	43.3 %	39.4 %		

Selling and marketing expense for the three months ended June 30, 2022 increased \$18.7 million, or 71.2%, compared to the three months ended June 30, 2021. The overall increase as a percentage of net sales was driven by an increase in sales commissions of \$3.3 million associated with higher revenue, an increase in personnel-related expenses of \$5.8 million resulting from an increase in headcount, and an increase in stock-based compensation expense of \$1.7 million. In addition, expenses related to training and travel expenses increased by \$0.5 million due primarily to the launch of Syndeo and marketing spend increased by \$5.3 million as we invested forward in Americas and EMEA in key tradeshows, GlowVolution and other marketing programs.

Research and Development

(in millions)	Three Months Ended June 30,		Change	
	2022	2021	Amount	%
Research and development	\$ 2.6	\$ 3.0	\$ (0.4)	(13.0)%
<i>As a percentage of net sales</i>	2.5 %	4.5 %		

Research and development expense for the three months ended June 30, 2022 decreased \$0.4 million, or 13.0%, compared to the three months ended June 30, 2021. The decrease was primarily due to the shifting of investments from outside consultants that were offset by increased investments in personnel of \$1.2 million and additional investments into our data infrastructure.

General and Administrative

(in millions)	Three Months Ended June 30,		Change	
	2022	2021	Amount	%
General and administrative	\$ 27.6	\$ 44.4	\$ (16.8)	(37.9)%
<i>As a percentage of net sales</i>	26.6 %	66.8 %		

General and administrative expense for the three months ended June 30, 2022 decreased \$16.8 million, or 37.9%, compared to the three months ended June 30, 2021. This decrease is primarily attributable to a decrease in transaction costs of \$27.6 million related to the consummation of the Business Combination. The decrease in transaction costs were offset by an increase of \$0.9 million in stock-based compensation, \$3.0 million in personnel-related expenses, \$3.1 million in recruiting & other professional fees, and \$1.1 million in legal fees which includes expenses related to litigating and enforcing patent and trademark infringement claims against third parties.

Other (Income) Expense, Net and Income Tax Provision

(in millions)	Three Months Ended June 30,		Change	
	2022	2021	Amount	%

Income tax expense (benefit)	\$ 0.1	\$ (1.9)	\$ 2.0	(104.1)%

Other income, net was \$11.4 million for the three months ended June 30, 2022 compared to other expense of \$114.9 million for the three months ended June 30, 2021. The change was primarily driven by the changes in the fair values of our warrants and earn-out shares issued on July 15, 2021. During the three months ended June 30, 2022 the Company recognized other income of \$15.2 million due to the change in the fair value of the warrant liabilities compared to an expense of \$72.0 million for the three months ended June 30, 2021. In addition, during the three months ended June 30, 2021 the Company recognized a \$36.5 million expense for the change in the fair value of the earn-out shares liability.

Total net sales for the six months ended June 30, 2022 increased \$64.9 million, or 56.9%, compared to the six months ended June 30, 2021. Delivery Systems sales for the six months ended June 30, 2022 increased \$45.8 million, or 75.6%, compared to the six months ended June 30, 2021. Delivery Systems units sold for the six months ended June 30, 2021 increased primarily due to the strong demand for the Company's new Syndeo delivery system. Consumables sales for the six months ended June 30, 2022 increased \$19.1 million, or 35.7%, compared to the six months ended June 30, 2021. The increase in Consumables sales was primarily attributable to increased placements of delivery systems and the adjoining consumption of consumables during the six months ended June 30, 2022.

Cost of Sales, Gross Profit, and Gross Margin

(in millions)	Six Months Ended June 30,		Change	
	2022	2021	Amount	%

Gross profit	\$ 123.6	\$ 79.0	\$ 44.6	56.5%
Gross margin	69.1 %	69.3 %		

Cost of sales increased 57.9% driven by increased sales volume and a shift in the product mix to HydraFacial Delivery Systems. Gross margin decreased from 69.3% during the six months ended June 30, 2021 to 69.1% during the six months ended June 30, 2022, primarily due to the shift in sales mix of delivery systems from 53% to 59% of sales in the period including lower margin trade-up units, along with higher supply chain and logistics costs. The Company expects continued headwinds from global supply chain challenges and inflationary pressures to weigh on gross margin through 2022, specifically higher shipping costs, offset by fixed cost leverage from higher sales volumes coupled with pricing initiatives, margin accretion related to the acquired distributor inventory.

Research and development	\$ 4.8	\$ 4.4	\$ 0.4	8.8 %
<i>As a percentage of net sales</i>	2.7 %	3.9 %		

Research and development expense for the six months ended June 30, 2022 increased \$0.4 million, or 8.8%, compared to the six months ended June 30, 2021. The increase was primarily due to additional personnel-related expense in the research and development department which increased by \$1.8 million year-over-year. There were additional investments into our data infrastructure which increased by \$0.8 million, offset by a \$2.4 million decrease in Syndeo research and development expenses.

General and Administrative

(in millions)	Six Months Ended June 30,		Change	
	2022	2021	Amount	%
General and administrative	\$ 53.8	\$ 55.2	\$ (1.4)	(2.5)%
<i>As a percentage of net sales</i>	30.1 %	48.4 %		

General and administrative expense for the six months ended June 30, 2022 decreased \$1.4 million, or 2.5%, compared to the six months ended June 30, 2021. This decrease is primarily attributable to a decrease in transaction costs of \$27.2 million related to the consummation of the Business Combination. The decrease in transaction costs were offset by an increase of \$4.8 million in stock-based compensation, \$6.2 million in personnel-related expenses, \$5.2 million in recruiting & other professional fees, \$2.9 million in legal fees, and \$1.6 million in director and officer insurance.

Other (Income) Expense, Net and Income Tax Provision

(in millions)	Six Months Ended June 30,		Change	
	2022	2021	Amount	%
Other (income) expense, net	\$ (59.5)	\$ 120.9	\$ (180.4)	(149.2)%
Income tax expense (benefit)	\$ 2.7	\$ (2.2)	\$ 4.9	(223.7)%

Other income, net, was \$59.5 million for the six months ended June 30, 2022 compared to other expense of \$120.9 million for the six months ended June 30, 2021. The change was primarily driven by the changes in the fair values of our warrant liabilities and earn-out share liabilities which were issued on July 15, 2021. During the six months ended June 30, 2022 the Company recognized other income of \$67.2 million due to the change in the fair value of the warrant liabilities versus a \$72.0 million expense for six months ended June 30, 2021. In addition, during the six months ended June 30, 2021 the Company recognized a \$36.5 million expense for the change in the fair value of the earn-out shares liability.

Liquidity and Capital Resources

Our primary sources of capital have been funded by (i) cash flow from operating activities, (ii) net proceeds received from the consummation of the Business Combination, (iii) net proceeds received from the Notes (as defined below), and (iv) net proceeds received from the exercise of Public and Private Placement Warrants. As of June 30, 2022, we had cash and cash equivalents of approximately \$821.0 million. A revolving credit facility of \$50 million is also available as a source of capital although as of June 30, 2022, the revolving credit facility remains undrawn and there is no outstanding balance thereunder.

Our sources of liquidity and cash flows are used to fund ongoing operations, research and development projects for new products, services, and technologies, and provide ongoing support services for our providers and customers. Over the next year, we anticipate that we will use our liquidity and cash flows from our operations to fund our growth. In addition, as part of our business strategy, we occasionally evaluate potential acquisitions of businesses and products and technologies. Accordingly, a portion of our available cash may be used at any time for the acquisition of complementary products, services, or businesses. Such potential transactions may require substantial capital resources, which may require us to seek additional debt or equity financing. We cannot assure you that we will be able to successfully identify suitable acquisition candidates, complete acquisitions, integrate acquired businesses into our current operations, or expand into new markets. Furthermore, we cannot provide assurances that additional financing will be available to us in any required time frame and on commercially reasonable terms, if at all.

We expect capital expenditures of up to \$20.0 million for the year ending December 31, 2022. Based on our sources of capital (including the cash consideration received from the consummation of the Business Combination and the cash received from the issuance of the Notes), management believes that we have sufficient liquidity to satisfy our anticipated working capital requirements for our ongoing operations and obligations for at least the next twelve months. However, we will continue to evaluate our capital expenditure needs based upon factors including but not limited to our rate of revenue growth, potential acquisitions, the timing and amount of spending on research and development, growth in sales and marketing activities, the timing of new product launches, timing and investments needed for international expansion, the continuing market acceptance of the Company's products and services, expansion, and overall economic conditions.

If cash generated from operations is insufficient to satisfy our capital requirements, we may have to sell additional equity or debt securities or obtain expanded credit facilities to fund our operating expenses. The sale of additional equity would result in additional dilution to our stockholders. Also, the incurrence of additional debt financing would result in debt service obligations and the instruments governing such debt could provide for operating and financing covenants that would restrict our operations. In the event such additional capital is needed in the future, there can be no assurance that such capital will be available to us, or, if available, that it will be in amounts and on terms acceptable to us. If we cannot raise additional funds when we need or want them, our operations and prospects could be negatively affected. However, if cash flows from operations become insufficient to continue operations at the current level, and if no additional capital were obtained, then management would restructure the Company in a way to preserve our business while maintaining expenses within operating cash flows.

Credit Agreement

On December 30, 2021, HydraFacial LLC, a California limited liability company f.k.a. Edge Systems LLC (the "Borrower") and an indirect wholly owned subsidiary of The Beauty Health Company, as borrower, entered into a Credit Agreement (the

“Credit Agreement”) with Edge Systems Intermediate LLC, an indirect wholly owned subsidiary of the Company and the direct parent of the Borrower that holds the Company’s foreign and domestic operating entities, and The Hydrafacial Company Mexico Holdings, LLC, a direct wholly owned subsidiary of the Borrower that conducts the Mexican business operations, as guarantors (the “Guarantors” and, together with the Borrower, the “Loan Parties”), and JPMorgan Chase Bank, N.A., as administrative agent.

The Credit Agreement provides for a \$50 million revolving credit facility with a maturity date of December 30, 2026. In addition, the Borrower has the ability from time to time to increase the revolving commitments or enter into one or more tranches of term loans up to an additional aggregate amount not to exceed \$50 million, subject to receipt of lender commitments and certain conditions precedent. As of June 30, 2022, the Credit Agreement remains undrawn and there is no outstanding balance under the revolving credit facility.

Borrowings under the Credit Agreement are secured by certain collateral of the Loan Parties and are guaranteed by the Guarantors, each of whom will derive substantial benefit from the revolving credit facility. In specified circumstances, additional guarantors are required to be added. The Credit Agreement contains various restrictive covenants subject to certain exceptions, including limitations on the Borrower’s ability to incur indebtedness and certain liens, make certain investments, become liable under contingent obligations in certain circumstances, make certain restricted payments, make certain dispositions within guidelines and limits, engage in certain affiliate transactions, alter its fundamental business or make certain fundamental changes, and requirements to maintain financial covenants, including maintaining a leverage ratio of no greater than 3.00 to 1.00 and maintaining a fixed charge coverage ratio of not less than 1.15 to 1.00.

The leverage ratio also determines pricing under the Credit Agreement. At the Borrower’s option, borrowings under the revolving credit facility accrue interest at a rate equal to either LIBOR or a specified base rate plus an applicable margin. The applicable margin is linked to the leverage ratio. The margins range from 2.00% to 2.50% per annum for LIBOR loans and 1.00% to 1.50% per annum for base rate loans. The revolving credit facility is subject to a commitment fee payable on the unused revolving credit facility commitments ranging from 0.25% to 0.35%, depending on the Borrower’s leverage ratio. As of June 30, 2022 the Company’s unused commitment rate was 0.25%. The Borrower is also required to pay certain fees to the administrative agent and letter of credit issuers under the revolving credit facility. During the term of the revolving credit facility, the Borrower may borrow, repay and re-borrow amounts available under the revolving credit facility, subject to voluntary reductions of the swing line, letter of credit and revolving credit commitments.

Convertible Senior Notes

On September 14, 2021, we issued \$750 million aggregate principal amount of Notes in a private placement to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended. The Notes were issued pursuant to, and are governed by, an indenture, dated as of September 14, 2021, between the Company and U.S. Bank National Association, as trustee. The Notes accrue interest at a rate of 1.25% per annum, payable semi-annually in arrears on April 1 and October 1 of each year, beginning on April 1, 2022. The Notes will mature on October 1, 2026, unless earlier repurchased, redeemed or converted. Before April 1, 2026, noteholders have the right to convert their Notes only upon the occurrence of certain events. From and after April 1, 2026, noteholders may convert their Notes at any time at their election until the close of business on the second scheduled trading day immediately before the maturity date. We will settle conversions by paying or delivering, as applicable, cash, shares of our Class A Common Stock or a combination of cash and shares of our Class A Common Stock, at our election. The initial conversion rate is 31.4859 shares of Class A Common Stock per \$1,000 principal amount of Notes, which represents an initial conversion price of approximately \$31.76 per share of Class A Common Stock. We used \$90.2 million of the net proceeds from the sale of the Notes to fund the cost of entering into capped call transactions. The net proceeds from the issuance of the Notes were approximately \$638.7 million, net of capped call transaction costs of \$90.2 million and debt issuance costs totaling \$21.3 million. See Note 10 - Debt, to the Notes to the Condensed Consolidated Financial Statements included elsewhere in this report.

Capped Call Transactions

Capped call transactions cover the aggregate number of shares of our Class A Common Stock that will initially underlie the Notes, and generally reduce potential dilution to our common stock upon any conversion of Notes and/or offset any cash payments we may make in excess of the principal amount of the converted Notes, as the case may be, with such reduction and/or offset subject to a cap, based on the cap price of the capped call transactions. See Note 2 - Summary of Significant Accounting Policies, to the Notes to Consolidated Financial Statements included elsewhere in this report.

Contractual Obligations and Other Commercial Commitments

As of June 30, 2022, our material contractual obligations is approximately \$39.8 million in interest related to the Notes, the Notes of \$750 million, and \$17.7 million in lease obligations.

Known Trends or Uncertainties

We believe there are several emerging trends that may play a key role in shaping the future of the beauty health industry. Our market research demonstrated that consumers are increasingly willing to spend on high-end beauty health products. Some of the key industry trends identified by this market research are:

- *Millennials/Gen Z aging:* HydraFacial customers are young; approximately 50% of HydraFacial customers are Millennials, and approximately 30% of HydraFacial's beauty retail customers are under the age of 24. As the Millennial and Gen Z consumers age, they appear to be taking skincare more seriously and willing to invest in premium experiences, such as those offered by HydraFacial.
- *Influencers and social media driving purchase decisions:* Social media personalities are increasingly opining and having an effect on skin care, which has gained more prominence in the age of selfies.
- *Growth in disposable income:* As the global economy grows, consumers have more disposable income to spend on premium products.
- *Shift in spend from makeup to skin care:* There appears to be an increasing movement towards treating underlying skin to make it healthy and reveal it (i.e., "clean beauty"), as opposed to using products such as make-up to cover it. Clean beauty places an emphasis on unveiling fresh, naked skin as the star, as opposed to covering it up. The HydraFacial experience not only physically cleanses skin with vortex suction, exfoliation and extraction, and removal of debris, but it also actively infuses the skin with innovative, clean ingredients to nourish and hydrate the newly cleaned skin canvas.
- *Growth in multi-brand and online retailers:* Multi-brand retailers and digital native brands play an important role in captivating the consumer and pushing innovation.
- *Consumers shopping across mass and premium brands:* Consumers appear to be willing to shop across mass and premium brands in order to allocate more money towards trending categories and products that help make them look and feel better.

However, we operate in the beauty health industry, which is highly competitive and changes rapidly. Our operating results could be significantly affected by our ability to develop new products and find new distribution channels for new and existing products.

Furthermore, the majority of our customers are in the medical, (dermatologists and plastic surgeons), esthetician, and beauty retail industry. During economic downturns, we have seen consolidations in such industries. Also, the extent to which the COVID-19 pandemic impacts our business going forward will depend on numerous factors we cannot reliably predict, including the duration and scope of the pandemic; businesses and individuals' actions in response to the pandemic; and the impact on economic activity including the possibility of recession or financial market instability. These factors may adversely impact consumer, business, and government spending as well as customers' ability to pay for our products and services on an ongoing basis. As a result, our growth rate could be affected by consolidation and downsizing in the medical, esthetician, and beauty retail industry.

In addition, we expect continued headwinds from global supply chain challenges and inflationary pressures to weigh on gross margin in 2022, specifically higher shipping costs, offset by margin accretion related to the acquired distributor inventory and pricing initiatives aimed at improving our margins.

Off-Balance Sheet Arrangements

We do not maintain any off-balance sheet arrangements, transactions, obligations or other relationships with unconsolidated entities that would be expected to have a material current or future effect upon our financial condition or results of operations.

Cash Flows

The following table summarizes the activities from our statements of cash flows. Amounts may not foot due to rounding.

(in millions)	Six Months Ended June 30,	
	2022	2021
Cash and cash equivalents at beginning of period	\$ 901.9	\$ 9.5

Cash and cash equivalents at end of period	\$ 821.0	\$ 101.5

Operating Activities

Net cash used in operating activities of \$69.8 million for the six months ended June 30, 2022 was primarily due to investment in inventory in relation to the launch of Syndeo Delivery Systems, combined with a corresponding shift in the average collection period of receivables related to increased payment plan participation on delivery systems globally, as well as continued investments globally in people and systems to fuel future growth. The net income of \$40.4 million was driven by non-cash adjustments of \$37.1 million, with the largest adjustment being the fair value adjustment to warrant liabilities. The decrease in working capital of \$73.2 million was primarily due to the increase in accounts receivable of \$34.4 million and the increase in inventory of \$39.2 million.

Net cash used in operating activities of \$31.9 million for the six months ended June 30, 2021 was primarily due to an increase in accounts receivable of \$21.1 million. The net loss of \$142.7 million was driven by non-cash adjustments of \$125.6 million related to fair value adjustment of earn-out shares and warrant liabilities, and a decrease in working capital of \$14.8 million.

Investing Activities

Cash used in investing activities for the six months ended June 30, 2022 of \$8.3 million was primarily related to \$5.6 million in capital expenditures for property and equipment, \$1.5 million in capital expenditures for the asset acquisition of Mxt and related developed technology, and \$1.3 million in capitalized software.

Cash used in investing activities for the six months ended June 30, 2021 of \$9.1 million was primarily related to capital expenditures of \$4.7 million and distributor business acquisition expenditures of \$4.9 million.

Financing Activities

There was \$2.8 million used in financing activities for the six months ended June 30, 2022 related to the distributor acquisitions of Wigmore and Sidermica. The Company did not withdraw from the line of credit and there were no transactions related to the warrants during the six months ended June 30, 2022.

Net cash from financing activities of \$133.0 million for the six months ended June 30, 2021 was primarily related to proceeds from the business combination of \$358.5 million, net of debt repayments of \$230.5 million.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with GAAP. In preparing the consolidated financial statements, we make estimates and judgments that affect the reported amounts of assets, liabilities, stockholders' equity/deficit, revenue, expenses,

and related disclosures. We re-evaluate our estimates on an on-going basis. Our estimates are based on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Because of the uncertainty inherent in these matters, actual results may differ from these estimates and could differ based upon other assumptions or conditions.

There has been no change to our critical accounting policies as included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021.

Recent Accounting Pronouncements

See Note 2 of the notes to our Condensed Consolidated Financial Statements in the section titled “Summary of Significant Accounting Policies” in our Note 2 to our consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for a discussion about new accounting pronouncements adopted and not yet adopted.

Non-GAAP Financial Measures

In addition to our results determined in accordance with accounting principles generally accepted in the United States of America (GAAP), management utilizes certain non-GAAP performance measures, adjusted net income (loss), adjusted EBITDA (loss), adjusted EBITDA margin, adjusted gross profit, and adjusted gross margin, for purposes of evaluating our ongoing operations and for internal planning and forecasting purposes. We believe that these non-GAAP operating measures, when reviewed collectively with our GAAP financial information, provide useful supplemental information to investors in assessing our operating performance.

Adjusted Net Income (Loss), Adjusted EBITDA and Adjusted EBITDA Margin

Adjusted net income (loss), adjusted EBITDA and adjusted EBITDA margin are key performance measures that we use to assess our operating performance. Because adjusted net income (loss), adjusted EBITDA and adjusted EBITDA margin facilitate internal comparisons of our historical operating performance on a more consistent basis, we use these measures for business planning purposes.

We also believe this information will be useful for investors to facilitate comparisons of our operating performance and better identify trends in our business. We expect adjusted EBITDA margin to increase over the long-term as we continue to scale our business and achieve greater operating leverage.

We calculate adjusted net income (loss) as net income (loss) adjusted to exclude: change in fair value of Public and Private Placement Warrants, change in fair value of earn-out shares liability, other expense (income), net; amortization expense; stock-based compensation expense; management fees incurred from our historical private equity owners; one-time or non-recurring items such as transaction costs (including transactions costs with respect to the Business Combination); restructuring costs (including those associated with COVID-19) and the aggregate adjustment for income taxes for the tax effect of the adjustments described above.

We calculate adjusted EBITDA as net income (loss) adjusted to exclude: change in fair value of Public and Private Placement Warrants, change in fair value of earn-out shares liability, other expense (income), net; interest expense; income tax benefit (expense); depreciation and amortization expense; stock-based compensation expense; foreign currency (gain) loss; management fees incurred from our historical private equity owners; one-time or non-recurring items such as transaction costs (including transactions costs with respect to the Business Combination); and restructuring costs (including those associated with COVID-19).

The following table reconciles our net income (loss) to adjusted net income (loss) and adjusted EBITDA for the periods indicated:

Unaudited (in thousands)	Three months ended June 30,		Six months ended June 30,	
	2022	2021	2022	2021

- (1) Represents quarterly management fees paid to the majority shareholder of HydraFacial based on a pre-determined formula. Following the Business Combination, these fees are no longer paid.
- (2) For the three months and six months ended June 30, 2022, such amounts primarily represent direct costs incurred in relation to potential acquisitions. For the three months and six months ended June 30, 2021, such amounts primarily represents direct costs incurred with the Business Combination and to prepare HydraFacial to be marketed for sale by HydraFacial's shareholders in previous periods.
- (3) For the three months ended June 30, 2022, such costs primarily represent one-time severance costs due to a Company re-organization. For the six months ended June 30, 2022, such costs include the re-organization severance, other one-time personnel costs related to executive recruiting, executive severance, a one-time loss on fixed asset write-offs and a CEO sign-on bonus.

Adjusted Gross Profit and Adjusted Gross Margin

We use adjusted gross profit and adjusted gross margin to measure profitability and the ability to scale and leverage the costs of Delivery Systems and Consumables. The continued growth of Delivery Systems is expected to improve adjusted gross margin, as additional Delivery Systems sold will increase our recurring Consumables net sales, which has higher margins.

We believe adjusted gross profit and adjusted gross margin are useful measures to us and to our investors to assist in evaluating our operating performance because they provide consistency and direct comparability with past financial performance and between fiscal periods, as the metric eliminates the effects of amortization and depreciation and stock-based compensation expense, which are non-cash expenses that may fluctuate for reasons unrelated to overall continuing operating performance. Adjusted gross margin has been and will continue to be affected by a variety of factors, including the product mix, geographic mix, direct vs. indirect mix, the average selling price on Delivery Systems, and new product launches. We expect our adjusted gross margin to fluctuate over time depending on the factors described above.

The following table reconciles gross profit to adjusted gross profit for the periods indicated. Amounts and percentages may not foot due to rounding:

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	2022	2021

Adjusted gross margin	72.3%	74.9%	72.4%	73.8%

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Interest Rate Risk

We had cash and cash equivalents of approximately \$821.0 million as of June 30, 2022. We do not enter into investments for trading or speculative purposes. We have not been exposed, nor do we anticipate being exposed to material risks due to changes in interest rates. A hypothetical 10% increase in interest rates during any of the periods presented would not have had a material impact on our consolidated financial statements.

We are primarily potentially exposed to changes in short-term interest rates with respect to our cost of borrowing under our Credit Agreement, from which we have yet to draw on. Our debt obligations related to the Notes are long-term in nature with fixed interest rates. We monitor our cost of borrowing, taking into account our funding requirements, and our expectations for short-term rates in the future. A hypothetical 10% change in the interest rate on our Credit Agreement for all periods presented would not have a material impact on our consolidated financial statements.

Foreign Currency Risk

To date, all of our inventory purchases have been denominated in U.S. dollars. Our international sales are primarily denominated in foreign currencies and any unfavorable movement in the exchange rate between U.S. dollars and the currencies in which we conduct sales in foreign countries could have an adverse impact on our revenue. A portion of our operating expenses are incurred outside the United States and are denominated in foreign currencies, which are also subject to fluctuations due to changes in foreign currency exchange rates.

While we are not currently contractually obligated to pay increased costs due to changes in exchange rates, to the extent that exchange rates move unfavorably for our suppliers, they may seek to pass these additional costs on to us, which could have a material impact on our gross margins. Our operating results and cash flows are, therefore, subject to fluctuations due to changes in foreign currency exchange rates. However, we believe that the exposure to foreign currency fluctuation from operating expenses is relatively small at this time as the related costs do not constitute a significant portion of our total expenses.

Inflation Risk

Inflation has the potential to adversely affect our liquidity, business, financial condition, and results of operations by increasing our overall cost structure, particularly if we are unable to achieve commensurate increases in the prices we charge our customers. The existence of inflation in the economy has resulted in, and may continue to result in, higher interest rates and capital costs, shipping costs, supply shortages, increased costs of labor, weakening exchange rates, and other similar effects. As a result of inflation, we have experienced and may continue to experience, cost increases. Although we may take measures to mitigate the impact of this inflation, if these measures are not effective, our business, financial condition, results of operations, and liquidity could be materially adversely affected. Even if such measures are effective, there could be a difference between the timing of when these beneficial actions impact our results of operations and when the cost of inflation is incurred.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

As required by Rules 13a-15 and 15d-15 under the Exchange Act, our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2022. Based upon their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, due to the material weaknesses that existed as of December 31, 2020 and continued to exist as of June 30, 2022, our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) were not effective. This was accordingly disclosed in our Annual Report on Form 10-K for the year ended December 31, 2021, Form 10-K/A for the year ended December 31, 2020 and in our Definitive Proxy Statement filed on April 7, 2021.

Previously Identified Material Weaknesses in Internal Control over Financial Reporting

In connection with the audit of HydraFacial as of and for the year ended December 31, 2020, we previously identified material weaknesses in our internal control over financial reporting. The material weaknesses were related to segregation of duties, including the review and approval of journal entries, our lack of sufficient accounting resources and the lack of a formalized risk assessment process. These material weaknesses may not allow for us to have proper segregation of duties and the ability to close our books and records and report our results on a timely basis.

In response to the material weaknesses, management completed the following remediation actions:

- We established a formal risk assessment process to identify and evaluate risks relevant to financial reporting objectives
- We implemented segregation of duties around the approval of journal entries and accounting processes
- We implemented a training program addressing internal control over financial reporting, including educating control owners regarding the requirements of each control

We determined that the material weakness around lack of sufficient accounting resources continued to exist as of December 31, 2021. This material weakness may not allow for us to have proper segregation of duties and the ability to close our books and report our results on a timely basis.

We have begun the process of, and we are focused on, designing and implementing effective internal controls measures to improve our internal control over financial reporting and remediate the material weakness. Our efforts include a number of actions:

- We are actively recruiting additional personnel, in addition to engaging and utilizing third party consultants and specialists to supplement our internal resources and segregate key functions within our business processes, if appropriate;
- We are designing and implementing additional review procedures within our accounting and finance department to provide more robust and comprehensive internal controls over financial reporting that address the relative financial statement assertions and risks of material misstatement within our business processes;
- We are designing and implementing information technology and application controls in our financially significant systems to address our relative information processing objectives

While these actions and planned actions are subject to ongoing management evaluation and will require validation and testing of the design and operating effectiveness of internal controls over a sustained period of financial reporting cycles, we are committed to the continuous improvement of our internal controls over financial reporting and will continue to diligently review our internal control over financial reporting.

Changes in Internal Control over Financial Reporting

Other than the remediation efforts described in this Item 4, there have been no changes in our internal control over financial reporting during the quarter ended June 30, 2022 covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II— OTHER INFORMATION

Item 1. Legal Proceedings.

For a description of our material pending legal proceedings, see Note 13, Commitments and Contingencies, to our consolidated financial statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q.

Item 1A. Risk Factors

Please carefully consider the information set forth in this Quarterly Report on Form 10-Q and the risk factors discussed in Part I, “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2021, filed with the SEC on March 1, 2022 (the “Annual Report”) and Part II “Item 1A. Risk Factors” in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2022 (the “Q1 Quarterly Report”), which could materially affect our business, financial condition, or future results. The risks described in our Annual Report and Q1 Quarterly Report, as well as other risks and uncertainties, could materially and adversely affect our business, results of operations, and financial condition, which in turn could materially and adversely affect the trading price of shares of our Class A Common Stock. There have been no material updates or changes to the risk factors previously disclosed in our Annual Report and Q1 Quarterly Report; provided, however, additional risks not currently known or currently material to us may also harm our business.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On April 12, 2022, we issued an aggregate of 28,733 restricted shares of our Class A Common Stock to shareholders of Mxt on a pro rata basis as partial consideration of our acquisition of Mxt (the “Mxt Shares”). The Mxt Shares were valued at \$17.40 per share, which was the price per share based on the average closing price of our Class A Common Stock for the thirty (30) trading days immediately preceding our acquisition of Mxt. For additional information about the Mxt transaction please see our description in Note 3, Business Combinations, to our consolidated financial statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q.

The Mxt Shares were not registered under the Securities Act of 1933, as amended. However, the Mxt Shares were issued in reliance upon the exemption from registration provided for under Section 4(a)(2) of the Securities Act of 1933, as amended, and/or Section 506 of Regulation D promulgated thereunder.

Except as set forth above, we did not sell any other unregistered equity securities during the period covered by this report that were not otherwise disclosed in a Current Report on Form 8-K.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not Applicable.

Item 5. Other Information.

The information included in this Item 5 is provided in lieu of filing such information on a Current Report on Form 8-K under Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers:

On August 3, 2022, the Company’s indirect, wholly-owned subsidiary, HydraFacial LLC, f.k.a. Edge Systems, LLC, and Indra Pamamull, the former President of APAC of the Company, entered into a Separation Agreement (the “Separation Agreement”) in connection with Ms. Pamamull’s transition out of the Company. The Separation Agreement is effective as of June 8, 2022 (the “Separation Date”).

Pursuant to the terms of the Separation Agreement, HydraFacial has agreed to (i) pay to Ms. Pamamull cash consideration of (a) \$12,641 Singapore dollars, which represents the prorated monthly salary for the month of June up to the Separation Date, (b) \$21,392 Singapore dollars, which represents the prorated, accrued and unutilized paid annual leave up to the Separation Date, (c) \$278,100 Singapore dollars, which represents severance payment equivalent to six months’ salary, (d) \$18,180 Singapore dollars, which represents the amounts owed had Ms. Pamamull taken part in the Central Provident Fund in

Singapore, (e) an amount equal to Ms. Pamamull's monthly base salary for up to six (6) months, or such shorter period thereof in the event that Ms. Pamamull commences paid employment with any other entity, and (f) an amount equal to the pro-rata target bonus up to the Separation Date, and (ii) continue Ms. Pamamull's current health benefits for up to six (6) months after the Separation Date (collectively, the "Severance Payments").

In consideration for the Severance Payments, Ms. Pamamull has agreed to customary general releases and waivers in favor of the Company and HydraFacial, and customary post-employment covenants with respect to confidential information of the Company and HydraFacial.

The foregoing description of the Separation Agreement does not purport to be complete and is qualified in its entirety by reference to the full text of the Separation Agreement, a copy of which is attached hereto as Exhibit 10.3 and is incorporated herein by reference.
